

Working Model

Secret Decoder Ring Codes

When launching Working Model on some departmental computers, a dialog box appears asking for the last word on a certain page of the user manual. Here is a list of some of the page numbers and last words:

Page Number	Last Word
2-22	details
4-76	accordingly
4-86	closely
6-22	rectangle
6-29	rotate
7-3	bodies
7-19	execute
9-25	data
B-2	appears
C-7	files

If other page numbers appear, then re-launch Working Model until one of the above page numbers appear.
